2. I will take over your dog quietly and you will be asked to leave for 15-20 mins from the driveway. and your dog will meet other boarding dogs outside.

I will let your dog sniff around (on a leash in the fully fenced area and your dog will meet other boarding dogs outside.

3. After your dog is OK to meet them and roam off-leash outside for a while, then your dog will go inside the house to explore.

4. Once this is completed, I will text you. You are welcome to join your dog to see the inside of the house.

*If it is convenient for you, you may leave your dog at our place for a couple of hours or half a day if your dog is very social. That's free of charge. Please arrange it prior to the visit.

*You may be texted/called to come back when your dogs are not getting along well with the other dogs (reacts aggressively towards the dogs) outside.

*If your dog is very nervous or cautious to stay inside, a couple of pre-stays (over-night or daycare) will be recommended.

I will try my boarding dogs to not notice when you arrive at my place to keep the minimum excitement of the dogs. That will make it easier when your dog meets them. So please stop and park your car on the driveway at the start of the driveway by the mailbox and wait in your car until I come out and meet you.
